Artiv. Make it simple.

In contemporary business life, workplace solutions help organisations to increase efficiency and productivity by supporting the management of information and effective integration of human and technological communication.

ARTIV is designed to provide solutions for the everchanging and developing technologies and new workstyles. It gives you the opportunity to design office space according to new needs of organisational structures. Matching the expectations of today, ARTIV has a timeless design, thus the ability to fit any of the workshape needed in the future.

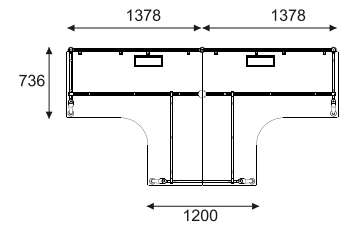

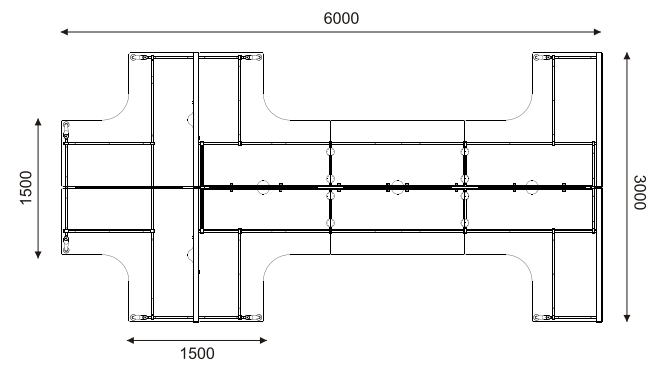

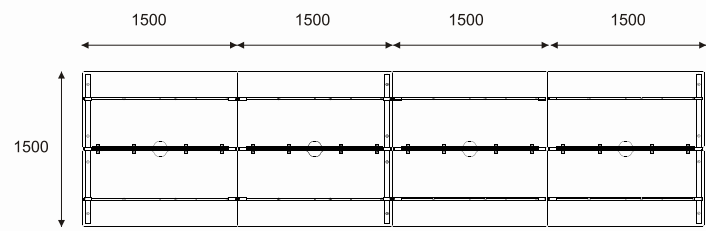

The functional and design versatility of the integrated cable management modules provides the right solution to suit any demands.

The panel holder is designed to hold the fabric panel along the center channel of the workstation.

The square metal leg is designed to allow height adjustment of 180mm. With this height adjustment, different thickness table top can be mounted on without sacrificing the ergonomics of the table.

This unique designed diagonal leg is able to allow height adjustment of 180mm. With this height adjustment, different thickness table top can be mounted on without interfering with the ergonomics of the table.

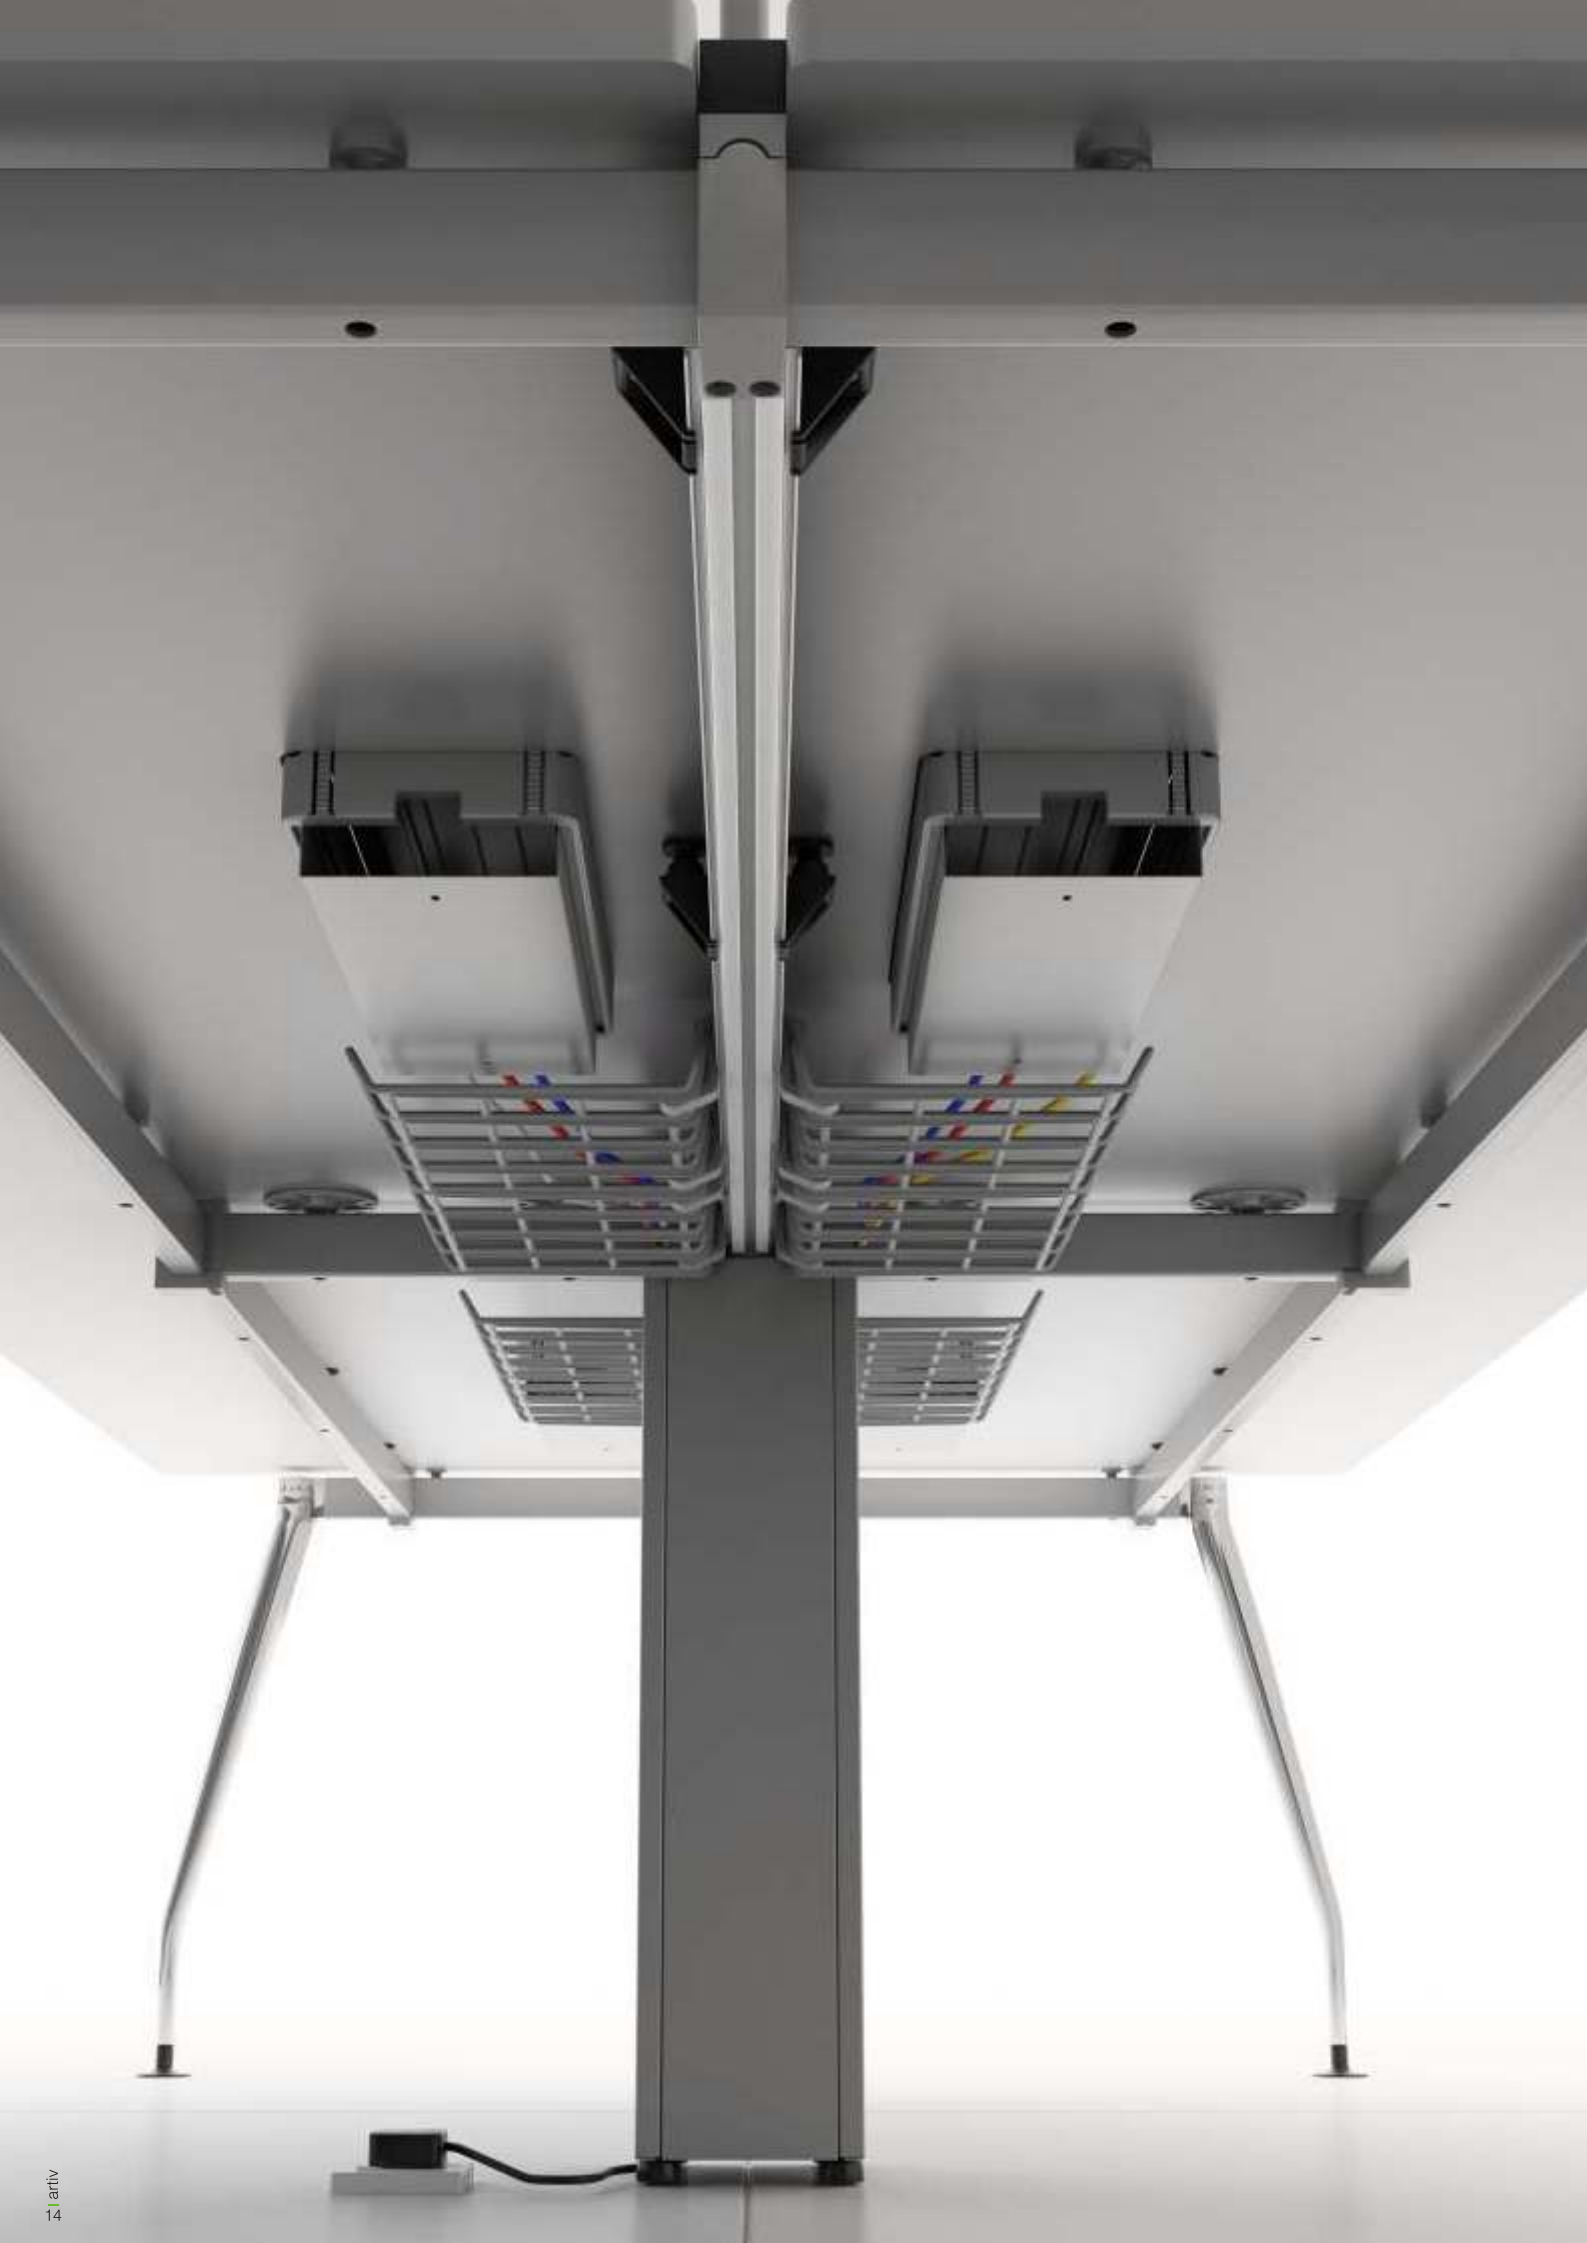

Artiv. Executive at its best.

Decision making is one of the most crucial task that an executive has to bear in his / her daily lives. Therefore, a congenial workplace will definitely be an important spot for an executive to release tension and neutralize stressful mind.

Our brand new Artiv, is a desking system which provides you a better and comfortable workplace especially designed for your hectic lifestyle. Its clean and crisp design will apparently help you to minimize the clutters in your working life.

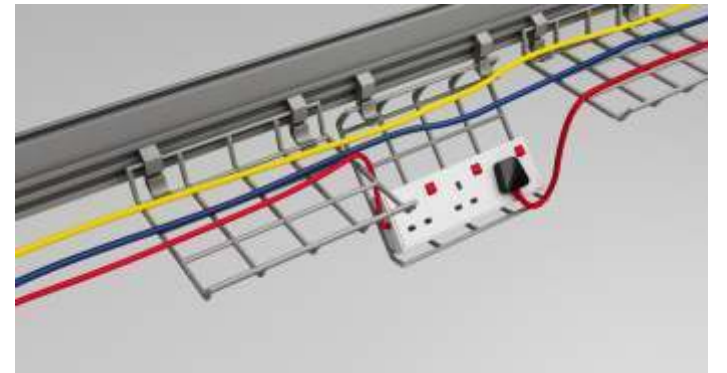

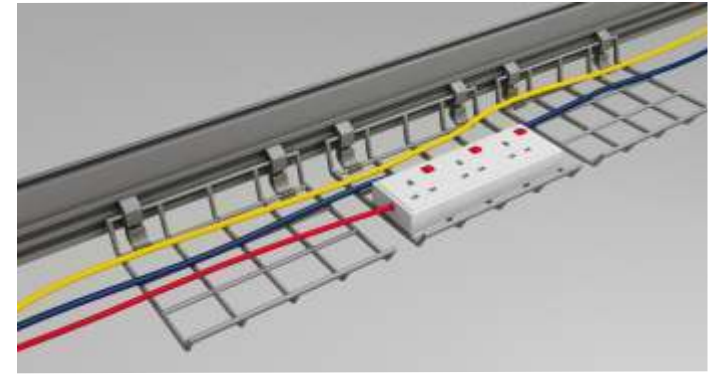

Furthermore, its intelligent wire management system will be able to clear all those messy, tangled wires for the peace of your mind. A clear mind is what makes an executive to work at its best and Artiv vicariously understand this.

Artiv. Intelligent cable management.

Artiv comprises of a cable management system which is able to provide you a hassle - free working surface. The functional and design versatility of the integrated cable management modules provides the right solution to suit any demands from you. For less cluttered working area, Artiv allows access to the power socket outlet from beneath the table top through a hatch cover. Turnable wire management tower cover enables easy installation of cables from ground to table top while keeping the wires hidden.

The result is customized solutions where technology is an integral part of the table configuration.

Wires are routed along the structure below the table tops using wire trays that are hooked to the aluminum beam. The wire trays can be released from its holder and lowered to allow easy management of data and power cables.
