RBM Twisted Little Star

A quality table with a different shape. Several tables can be connected like a jigsaw puzzle to create larger units. When the table is not in use, chairs can be shoved all the way under the edge. Despite the size of 125 x 125 cm, eight people can comfortably sit around the table. Smart and exciting design that is suitable in e.g. a library, canteen or meeting room. Quality craftsmanship.

Multiplex table top, surface in standard white laminate or oak veneer. Solid oak legs.

Design: Ørjan Dønne og Marius Sveen, Bare Møbler
