# okidoki

**Okidoki** was born from the idea of creating a table and chair family which can easily transition from home to office, with the cheeky, fun design bringing a sense of informality to the chosen environment. Featuring solid timber legs in American Ash, Walnut Stain, White Woodgrain or Black Woodgrain, the timber colour range of the legs is designed to either compliment or contrast with the powdercoat colours of the steel and aluminium framework.

The tables have been developed with consideration of the natural material selection and rounded design theme of the table frame. Okidoki features table tops in round, rounded square/rectangle and rounded triangular shapes in either timber finish or glass (which shows off the clean design of the table frame).

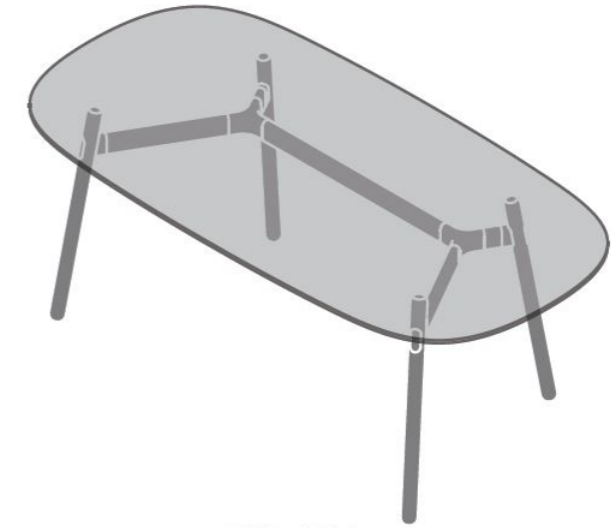

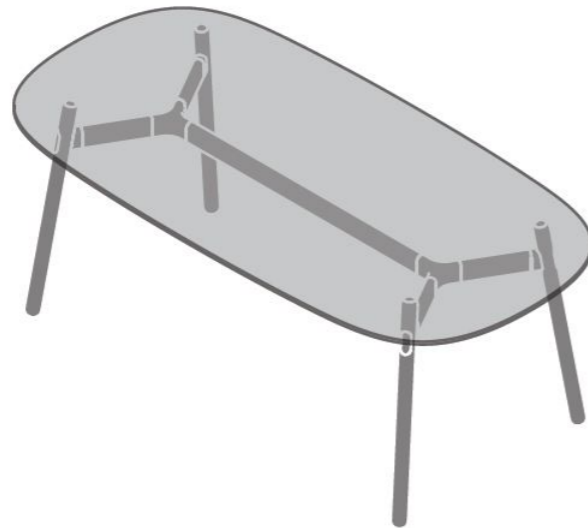

OKD-1061

## TABLES

Acting sustainably is what we do. With our beginnings in Australia, since 1984 we have been designing and manufacturing commercial furniture products and components for global work place environments. With sustainability at the core of everything we do, we are dedicated to the reduction of environmental impact from our products and actions.
